FUN and Fundraising

Participation in walking events and races can be a fun, low-impact way to get activity while helping to build awareness and raise funds in support of good causes. You can use the event as an end goal training plan, a personal challenge or just a way to get outside. If you haven't raced or walked in an official event, here are some guidelines to consider:

- Choose your challenge.** Decide on distance and venue. If signing up for a 5k, but you haven't been walking several miles a day already you will want to prepare.
- Gear up.** A reliable and comfortable pair of shoes will be your key to success.
- Preparation.** Build endurance and stamina through training. Get out daily and set goals to start at a slower pace and shorter distance, increasing gradually.
- Fuel up.** Replace highly processed foods with fresh fruits, vegetables and lean protein.

Whether you decide to walk or run, be sure to warm-up for about 10 minutes and have fun on your way!

SHOULD YOU Clean Your Ears?

Earwax is like a self-cleaning filter for your ears, trapping dirt and dust. Doctors agree, never to put something smaller than your elbow into your ear canal. That means that cotton swabs can be used to remove earwax from the outside of the canal of your ears very carefully, but never inserted into the ear canal.

Wearing hearing aids, earplugs or putting a cotton swab inside the ear canal can cause excess wax to develop. If too much earwax builds up and starts to cause symptoms the safest way to have it removed is to visit a doctor.

IF YOU FEEL LIKE YOU HAVE TOO MUCH EARWAX BUILDUP YOU CAN GENTLY CLEAN THE OUTSIDE OF YOUR EARS:

- Wipe the area using a warm, damp washcloth.
- Gently rub the ear with over-the-counter eardrops that soften the wax.
- Irrigate your ears using a syringe filled with water or a saline solution.

Ears usually do a good job cleaning themselves.
